DECEMBER GODEY, received by D. BUGBEE & Co.

THE HATCH HOUSE, Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P & K. Railroad, to and from which, Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, render it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitæ

Has now gained its position before the public as *THE ONLY REMEDY* yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most ASTONISHING SUCCESS in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors *freely*, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, the agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe and free from all other deleterious ingredients*, but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure
Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Coughs by using less than One Bottle;
Colds by using it Two to six Days.
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle;
Soreness of the Chest by using less than One Bottle;

Price $1 per bottle, accompanied by a Treatise. For sale by

THE "GREAT REPUBLIC" MONTHLY.

To the Public, the Book and Periodical Trade, and the Press.

WE have the honor to announce that we shall issue, on or about the 1st of December next, so as to be in season to command the early attention of the public and the periodical trade, the *First Number of a New Illustrated Magazine*, to be called THE "GREAT REPUBLIC" MONTHLY.

It is intended to make this Magazine superior in every respect to any thing ever before issued in this country. The general scope of its character can be best understood by its name. IT WILL BE THOROUGHLY NATIONAL—IN NO WISE SECTIONAL OR SECTARIAN, AND WHOLLY IMPERSONAL. It will offer to the writers and thinkers of this Union a common field, where they can meet on the highest ground of contemporary literature. It will aim to gather about it every variety of intellect.

The range of articles will be a wide one, covering, among other grounds, Essays, Sketches, Humorous Tales, Stories, Historical Incidents, Reviews, Critiques, Biographies, Scientific Articles, Travels, Table Talk, Dramas, Incidents, Politics, Poems, Ballads, Stanzas, Sonnets, Music, Correspondence, Gossip, etc., etc.

The Magazine will be profusely illustrated in the highest style of wood engraving.

The Literary department will present greater variety, combined with more thorough excellence, it is believed, than ever before offered to the American public in a single periodical. The following authors and popular writers are included in the list of contributors engaged.

Geo. D. Prentiss,	Henry Ward Beecher
Charles Swain	Thomas Mackellar
Fitz-Green Halleck	R. J. Brent (Stirrup)
Cha's J. Ingersoll	F. W Hunt, M D

Fred'k S Cozzens	Clara Doty
A. J. Requier	Abbie W. Crocker
Maj J H Eaton, USA	Nellie Burchfield
Levi Reuben	Ann E Porter
Tho's Dunn English	Lady N. Godfrey
Duncan Kennedy	Laviola S. Goodwin
Rev. Newell A. Prince	Jane G. Austin.
Henry B Hirst	

In addition to the foregoing brilliant array of American authors, there are a large number of first class writers engaged, (among them some of the most distinguished of the day), who are compelled, from pre existing engagements, or other causes, to withhold their names for the present, but who will, nevertheless, contribute frequently to our pages. We would also announce that we shall add to our list of contributors the names of other distinguished authors, as soon as satisfactory arrangements can be completed.

Each number will contain an original piece of Music, composed expressly for this work.

Of the superior excellence of the Magazine, in every respect, and [illegible] of its permanent success, very little more need be said.

The Terms and general conditions of the Magazine will be as follows.

TERMS

VOLUMES—There will be two volumes a year, of about 700 royal octavo pages each, commencing in January and July, and ending in June and December, respectively, making six numbers to each volume, and twelve numbers to each year. Subscriptions may commence at any time.

And all additional copies, over five, at the rate of $2 each, if sent to the same Club. Clubs may be formed at different Post-Offices. All subscriptions must be paid in advance.

PREMIUM SUBSCRIPTIONS, entitling the subscriber to the Magazine for one year and to their choice of either of our two great size engravings, entitled,

"THE LAST SUPPER."
—AND—
"THE CITY OF THE GREAT KING."
Four Dollars!

The Engraving will be sent on rollers by mail, prepaid.

Agents and Canvassers can make liberal and satisfactory arrangements, upon application stating the territory required.

All Postmasters and Clergymen are authorized to receive subscriptions, which they may forward to us, giving name and address of subscriber, and deducting 25 per cent. for their trouble.

Postage and Post-Office Regulations—The rate of postage will not exceed three cents for each number, to be paid in all cases at the office where it is received.

Canadian Subscribers will remit thirty-six cents each, in addition to the subscription, to pre-pay postage to the line.

All communications, to be entitled to answer, must contain return stamps.

Subscribers must in all cases write Names, Town, County, and State in full, as legibly as possible.

There is little risk in sending money by mail. Large sums should be remitted by draft, if possible or registered letter.

No's 80 & 82 Main Street,

Has on hand a large assortment of

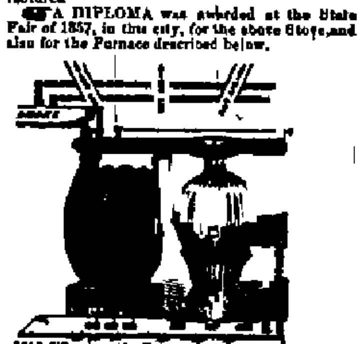
Cooking, Box and Parlor Stoves,

Of all kinds and sizes, among which is the celebrated

RAY STATE COOKING STOVE!

Which continues to maintain its high superiority over the numerous articles recently introduced to the public claiming to be *improvements over all others*. This Stove is recommended to all those who prefer facts, which have been established by long practical experience, to mere advertising puffs based only on fiction. This stove has the smoothest and best castings of any now manufactured.

A DIPLOMA was awarded at the State Fair of 1857, in this city, for the above Stove, and also for the Furnace described below.



The BARSTOW TUBULAR AND SPIRAL FURNACE, the *VERY BEST FURNACE EVER MADE*—which for the simplicity of its parts, which are very few and nicely adjusted, and their adaptation to their several purposes, the ease with which the fire can be kindled and extinguished, and the ashes sifted without difficulty, and obviating dust about the cellar, cannot be excelled. So complete are they, indeed, that no chance whatever is desirable in them, and they do not require to be patented in England or France, as there are no Furnaces used in either country, but open grates for burning coal.

REMOVAL.

United States and Foreign PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING, 13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Renewals and extensions procured, and in short, all business connected with the Patent Office is attended with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials.—

From the Hon. Charles Mason, Commissioner of Patents.

U S PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B RENWICK, L. D GALE, S H LANE, — Principal Examiners
F SOUTHGATE SMITH, T. R PEALE, THOS T EVERETT, WM C LANGDON, — Assistant Examiners

From long acquaintance and intimate official relations with Mr Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

SWAIM'S Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M D, Prof of Surgery, Pa. Univ
Valentine Mott, M D, Prof of Surgery, New York University
W. P Dewees, M D, Prof of Mid, Pa. Univ
N Chapman, M.D, Prof. of Physic, Pa. Univ
T Parke, M D, Pres't College Physicians, Phila
Dr. Del Vallo, Professor of Medicine, Havana
Jose Eourenco de Lus Prof of Surgery, Lisbon.
J Chipman, Member Royal College Surgeons, London
G. W Erving, late Minister to Spain
Sir Thomas Pearson, Maj Gen. British Army.
Gilbert Robertson, British Consul, &c, &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass—

"SWAIM'S—PANACEA—PHILADA,"

and having the name of JAS SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned strips, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright. Also,

Swaim's Vermifuge,

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY. THE OLD STAND, Seventh Street, below Chesnut, Philadelphia, and sold by all the respectable druggists in the United States.

CAUTION TO THE PUBLIC

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

S W A I M

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

STATE OF MAINE.

EXECUTIVE DEPARTMENT,
Augusta, Nov. 12, 1856.

An adjourned session of the Executive Council will be held at the Council Chamber, in Augusta, on *Wednesday*, the fifteenth day of December next. Attest,

NOAH SMITH, Jr.,
Secretary of State.

THE ABUSES OF EDUCATION.—We made some remarks a few days since upon the necessity of a reform in our system of education, if the health and the lives of the pupils are to be preserved. We regard this subject as being of the utmost importance, and as one upon which our citizens should take some effective action. It is now a topic to our immediate notice, by a paragraph in yesterday's Whig, stating that the School Committee had refused to accede to the prayer of a petition, asking that the schools may be dismissed at 12 o'clock instead of at half past 12. The reason assigned for the refusal is that "a loss would thereby be incurred of half an hour each day to the schools." We regard this as precisely the *best* reason why the petition *should be granted*. There *ought* to be a loss of time in the schools—not only of half an hour each day and each session, but of double that time. If our schools are to be kept forty-two or forty-four weeks in the year, as at present, the daily sessions should not be over two hours each. In that time, with the additional bodily strength and vigor which the children would have, we believe they might make quite as rapid progress, as in the three and three and a half hour sessions now required. In our judgment, it is a mistake to suppose that shortening the school hours will be a "loss to the schools." It will prove a *gain* to the children—in energy, ability and vital force—more than compensating for the reduction of time. If necessary, let the lessons be shorter, or the studies be fewer. By reducing the lessons, *all* the children may be enabled to commit them properly, (instead of a few of the most capable only, as at present) and there would be no necessity of spending so large a proportion of the time in "re-viewing" and re-committing lessons. Give the children lessons adapted to *ordinary* capacities, and such as they can commit without the ruinous confinement to study, and the severe mental effort now required in many cases—and we believe the schools will make far more *real* progress than at present. We know, at least, that fewer of the pupils would break down and die. An eminent and respected teacher, of more than twenty years experience, recently expressed his belief that *more children are killed by their study six hours' confinement in school, than by all the diseases otherwise contracted.* He gave this as the result of his own observation and experience—and we have not the slightest doubt of the truth of his statement. It agrees with all the teachings of physiology, and with the oft repeated warnings of our most intelligent physicians—and is, moreover, asserted to in theory by at least eight out of every ten *parents* whom you may consult on the subject. We say agreed to *in theory*—because, however strong the assent may be in language, very few think of instituting any practical measures of reform.

And yet the people are "sovereign" in this matter. The parents have power to compel a change. If they believe the health of their children requires an amendment in the system of study, that is the first consideration for them to attend to, and it is their duty to attend to it at once. Education is dearly purchased, if at the expense of the child's health or life. "Disciplining a child's mind," as it is called, by severe studies and heavy lessons may give a hot-bed growth to the intellect, but very rarely will the plant survive long enough to be transplanted into the great garden of life.

We trust some one who is sufficiently conversant with the general subject of education will digest and present, for consideration, some system of study which may obviate in a greater or less degree, the evils which are now so generally seen and acknowledged.

As to the special change recently petitioned for, and refused by the School Committee—we believe if ought to be made, and we hope will be made, as a beginning to a more effectual change. The petition, we understand, was not very extensively circulated, although the signers were among our most substantial and influential citizens. As the committee have not deemed it advisable to grant the prayer of these few petitioners, we hope another petition may be circulated, and the name of every parent solicited, so far as can be done in the proper time. If the signatures are as numerous, one or two believe they will be—show to the public sentiment is nearly unanimous and very earnest in the matter—the Committee will undoubtedly accede to the request. It involves something more than the mere relief from an hour's confinement each day.

THE MISSOURI DEMOCRATIC DOCTRINE—FREE LABOR.—In the debate in the Senate between Messrs. Douglas and Trumbull, (says the New York Evening Post) a good deal of the shallow and blackguard, as well as the vicious principles presented by Senator Hammond of South Carolina, at the commencement of the Union debate last winter, in support of the President's Kansas policy, is found or hid; whether labor with the hands, in building railroads, for example, laying walls, holding the plough, loading ships, trenching the ground, &c., is employment fit for freemen, or is only suitable for slaves. That is the exact question in a nut-shell. Hammond and the Administration party take the position that such labor is only fit for slaves. We quote:

> In all social systems, there must be a class to do the menial duties—to perform the drudgeries of life—that is, a class requiring but a low order of intellect and but little skill. Its requisites are vigor, docility, fidelity. Such a class you must have, or you would not have that other class, which leads progress, refinement and civilization. It constitutes the very mud-sills of society and of political government; and you might as well attempt to build a house in the air, as to build either one or the other except on the mud-sills. Fortunately for the South, she found a race adapted to that purpose to her hand. We use them for the purpose, and call them slaves.
>
> The man who lives by daily labor, and who has to put his labor in the market, and take the best he can get for it—in short, the whole class of your manual laborers and operatives of the North are slaves. The difference between us is, has our slaves are hired for life, well compensated, while your slaves are hired by the day, not cared for, and scantily compensated. * * * Our slaves are black, of another and inferior race. Your slaves are white, of your own race; you are brothers of one blood.

A Few Housekeeping Items.

Perhaps not generally known.

All who prize tomatoes as a wholesome and excellent article of food, should, know before another year that the season of using them can easily be prolonged to three times its usual length, by gathering all the green ones, small and large, before the frost cuts them down, and spreading them in a dry chamber to ripen gradually. If the sun shines into the room it is better, but they will ripen without sun, and by taking away the decaying ones occasionally, tomatoes may be had for the table till December,—even small green ones ripening at last, though of course their flavor is not equal to the fully grown. Those who do not succeed in bottling them for winter use may dry them with but little trouble, and find them very good, though of a darker color and a sharper taste than when successfully sealed.

Those who have purchased the little apple parer corer and slicer, which has been recently brought to this city, and think it wastes apples to use it, and that it is troublesome to finish up the apple after it, will find by removing the slicer and corer, and being content with paring only, that there is great gain and economy instead of waste in its use. The peeling is admirably thin, and even poorly shaped and bruised apples can be done by it much quicker than with the hand. In the country, where apples are plentier and sounder, particularly where they are to be dried, the whole apparatus must be very acceptable,—and we would recommend city people to send them to their country friends who have orchards, and take their pay next year in drift apples. This we say, too, in spite of the *annihilating criticism* of the New York Tribune, upon this little useful and ingenious machine! Like any machine, one must know how to use it, in order to like it, and this probably, the Tribune did not.

There is another new article, too, of more importance, as carpet sweeping is more incessant than apple paring, which one must use aright in order to like. One should not take this new friend to woman into all the recesses, nor expect that it will never cast a shred in its revolutions, but in all the middle-floor sweeping which must be done every day, if not oftener, it works so as to make sweeping only play, and dust no longer a nuisance. If there is a good quantity of cotton under your carpet, it is "perfectly elegant" as an enthusiast would say, in the way it *sucks up all the dirt*, and leaves the carpet so clean that the spring cleaning, so destructive to the fabric of carpets and the patience of housekeepers, needs to be but seldom resorted to. Welcome, we say, to every such real improvement in household labor.

Before we close, we will inform all who are interested (and who is not?) that there is promise now of a new and great improvement in one part of household labor, which has long vexed Yankee ingenuity to lighten, viz: washing. Thousands, perhaps, of washing machines have been invented to rub the clothes, but have failed to be practical, mainly because a machine cannot well to [illegible] should rub most. A new invention, which loosens the dirt so that it will rinse off by removing the atmospheric pressure through the exhaustion of the air from the cylinder into which the clothes with soap and water are put, promises to do wonders,—to wash fifty pieces in one half hour, and rinse them in another. We have good reasons for supposing that this will soon be offered to the public, and prove itself a blessed discovery to all housekeepers.

One by one, steps are taken towards that desirable point, when household labor shall not be the burden to the wife and mother which with a few exceptions it is now the world over. Neighbor the most often refuses to attend to the claims of the suffering around her,—and for honest health and enjoyment must often [illegible] the over-taxed household [illegible] upon the powers of her body and [illegible] Let woman welcome, as she [illegible] man's ingenuity has done, and [illegible] doing by the old of machinery to [illegible] her work.

[illegible] Bird.

[illegible] Lewis, Esq., of New Brunswick, bound [illegible] with [illegible] &c. of coal during the storm [illegible] last dreadful [illegible] anchored the [illegible] a [illegible] of coal at Guilford, Conn., [illegible] their half cargo [illegible] high, making a complete breach over her.—The persons on board, consisting of the captain, three men, the captain's wife and daughter, a little girl three years of age, took refuge in the rigging, one of the women taking charge of the little girl, while the captain assisted his wife. In this situation, says the New Haven Palladium, they remained until the forenoon of Tuesday, being in full view of Faulkner's Island, distant two miles, without any prospect of relief. They were nearly chilled through; the incessant working of the vessel threatening to pitch them into the maddened sea for each them. At this time the man holding the girl, worn out with the great exertion he was obliged to make, could do no more, and a wave striking the doomed vessel, the little girl dropped from his arms and fell to the deck and was probably instantly killed, as the angry sea washed the little body back and forth between the railings of the decks the night of its agonized parents, and was finally carried to the boiling sea beyond.

During all this time the keeper of the light-house on Faulkner's Island had been watching them, and at last he resolved to rescue them or perish in the attempt. Leaving his children alone, (his wife being absent ashore,) after nearly swamping his boat several times he succeeded by the greatest exertion, in reaching the schooner and rescuing the survivors and landing them on Faulkner's Island.

We observe by a notice in the Hannibal (Missouri) Messenger, signed by our former townsman, Mr. J. T. K. Hayward, General Agent of the Hannibal and St. Joseph Railroad, that the road is now to be run under direction of the officers of the Company—it having up to this time been run by the contractors. It will be completed as early as March next, and will then furnish railroad communication entirely across the State of Missouri, from the Mississippi to the Missouri river.

DEMOCRATIC REBELLION. The Albany Atlas & Argus, a thorough proed doughface Buchanan organ, having announced, as part of the democratic creed; that slaveholders have the same right to take their slaves into the Territories as have the owners of other property, the Rochester Union says:

> "Will our friends of the Atlas & Argus, please tell us when the dogma in question was incorporated into the Democratic creed? If it has thus been incorporated, the fact has escaped our observation. *Be it there or not*, we can not go it, *whatever others may do. And we are confident no Northern State in 1860 will vote for a candidate who does.*"

Various Items.

The Atlantic cable is *fruitful*, of puns, if nothing else. A wag says he doesn't care a fig whether they get any *currents* through it or not; but he should like it to send along a few fresh *dates*.

Punch thus expresses himself about the Miles Standish poetry—each verse of which has as many feet as a mile English:

> Miles Standish, old Puritan soldier, counts gal Priscilla by scores;
> Did I kiss the pussy the best, or Miles in a rage takes and boxes its ears?
> Paths think he's killed, but he ain't, and comes back, as a friend, to the wedding.
> If you call this ink-emetick stuff poetry, Punch will soon read you off Miles.

A candidate for Congress, out West, once summed up his vedication" as follows: "I never went to school but three times in my life, and that was to a night school. Two nights the teacher didn't come, and t'other night I *had no candle*."

AN OLD ANSWER. An editor being one day at confession, was asked if he had never groused the truth of the guests' heads, to prevent them from eating their allowance of cake and hay. "Never," replied the editor. In a subsequent confession, the editor acknowledged the frequent commission of that fraud.—"How," said the priest, "I remember at your last confession, you said you had never done so." "No more had I, then," answered the hostler, "for till you told me, I never knew the greasing a horse's teeth would prevent his eating; but since you first put it in my mind, I have ever been tempted to practice the trick."

Among the vows a man has to make in Japan when he is married, is one that he will find plenty of tea and rice for his wife during her life.

The Cincinnati Enquirer relates a thrilling discovery in that city of a woman and seven children in an old and dilapidated stable. When found they were stretched on some dung, and mouldy straw, seeking warmth by contact with each other, and some clothed with but a single garment, and that of the slightest texture. In a corner was seated the woman,

> "Clothed in unseemly rags,"

hunching to her bosom a child apparently about two months old, and vainly endeavoring to give sustenance, but instead it drew nothing but blood from her exhausted breasts. The most set side American sentiments of beauty and intelligence still lingered around her worn and haggard features. She had been well reared, and had seen better days, much better—she could not have seen worse—days, and until a period after her marriage had known no want. But our husband yielded to an appetite for liquor, became first a drunkard, then a cot, and finally abandoned her. The family were promptly and properly cared for by the city authorities.

SUBSTANTIAL FLOUR MILL.—The door has discovered at this mill is something quite as popular as that of Gardiner flour; and will obtain the reputation that no better article can be made in this State than is manufactured at this mill.

LOCAL AND MAINE NEWS.

BY TELEGRAPH.—We are requested to say that upon the statement made in the Times of yesterday, that Rev. Roger S. Howard of this city is to remove to Portland and to assume the rectorship of St. Stephen's Church.

A LECTURE WITHIN SHORT NOTICE.—Hon. Fayette Mace, Esq., is to deliver a lecture before the Mechanics' Association in this city this evening, on "*The Comparative Advantages of the East and the West.*" Mr. Mace is a man of talent and experience, and has been a quick observer of men and things and of the times during a two years residence at the west. He is also familiar with the Aroostook country—having been a pioneer in that section—and he is thus enabled draw comparisons which will make the lecture of much interest and practical value. Those who hear him, (and we trust they will be many) may thus learn what can be done in Maine.

NATURAL CURIOSITY.—A monstrous salt water animal of the seal species, but much larger than a common seal, was killed in the Penobscot river, about ten miles below this city, on Tuesday last, by Abel and Reuben Stubbs, and Henry Felch, and is now on exhibition at No. 2 Exchange Block, as per advertisement. He is 8 feet in length, girts 5 feet 2 inches, and weighs 600 pounds—has powerful flippers, (the "after" pair spreading some two feet each side of his tail,) and an ugly-looking, cat-shaped head, from which, during life, he could, as described, distend the skin in a hood-like form to the size of a half-bushel measure. The animal was discovered by some boys, and when attacked by the men and boys in three boats, showed fight with his flippers and teeth, and had to be beaten off with poles and pipe-oons. He was not killed until several heavy charges of buckshot and ball had been fired into his head.

SURVEYOR'S OFFICE, Dec. 2d, 1856.

A YANKEE NOTION.—We are made the recipients of an unpretending little instrument called "Shuter's Carpet Sweeper and Cleaner," which the ladies will highly prize. A spiral brush is made to revolve within a small cylinder having a small longitudinal opening at one side, so that when the apparatus is pushed over the floor, all loose particles are deposited within the cylinder, without raising a dust.—This will obviate a serious difficulty experienced by housekeepers.—*New York Journal of Commerce.*

This carpet sweeper is for sale in this city by Wm Lewis, at his store on Main Street.

DEATH OF BANGOR.—Mr. Chandler Robb, city undertaker, states that for *five* weeks previous to last Sunday there had not been a single interment in the Mount Hope Cemetery.

SURGICAL OPERATIONS.—The Union chronicles some important operations recently performed by Dr. Seavey of this city—viz the removal of a large internal tumor from the abdomen of a lady in Hampden, in which operation he was assisted by Dr. Baker of Hampden; the removal of a polypus tumor of unusual magnitude from the neck of a lady in Brewer; and of a malignant tumor from the neck of another lady in Brewer—the latter being an operation of much delicacy and danger, and in which he was assisted by Dr. Nason of Brewer.

MECHANICS' HALL, PORTLAND.—The Mechanics' Association of Portland have about completed their new and beautiful building on Congress Street. It is thus described by the *State of Maine.* It is 97 feet in length, by 83 in width. The front is granite, 50 feet 8 inches in height to the top of the cornice. The side walls and end are of brick, with a heavy belt of granite coping. The first story is 14 feet in height, with two good stores in front, 16 feet by 16 feet each. The main hall of entrance is 14 feet wide, and at the further end of it is a corridor running across to the west side of the building. In the rear of this is a Library room extending across the entire width of the building, 33 feet in the clear, 28 feet wide.

The second story contains the Hall of the Association, an elegant room in perfect proportion throughout. It is 66 feet long, by 52 wide, and 33 feet in height, with side galleries resting on iron brackets.

The third story is finished into a dining hall running the entire length of the building excepting only what is taken off for a cooking room. This hall is 75 by 36 feet.

FOXCROFT ACADEMY.—We have received a very neatly printed catalogue of this institution for the Fall term, 1856. The number of students is, Ladies 71, Gentlemen 76. In the classical department ladies and gentlemen, 46. The Seminary is very pleasantly situated, and is conducted by faithful instructors. The Spring term commences Feb. 21, 1859.

The first lecture of a Mercantile Course, in Portland was delivered last evening, by Caleb Cushing.

CATHOLIC CEMETERY.—Bishop Bacon has purchased a farm of 50 acres in Cape Elizabeth, lying on the south side of the road near the Reform School, for a Catholic Cemetery. A well proportioned chapel about 30 feet by 50, with an elegant spire rising from a projecting tower is already raised and enclosed and will soon be finished.

[illegible]—The stock of the Penobscot, Kenduskeag & Bangor Railroad Co., now [illegible] shows per [illegible].

[illegible] Business.—From the daily appearance of our streets, we should judge that business must be improving. One day last week we counted eighty-four teams in the streets at one time.—*Aroostook Pioneer.*

INSTALLATION.—Rev. James S. Rogers is to be installed pastor of Congregational Church and Society in Mills, Thursday afternoon, Dec. 4.

Rev. F. Parker of Bo ton, Moderator; Rev. Enoch Pond of Co ord—D. in Chair of Christian Theology, Bowdoin College, will preside. Introductory Services, by Rev W. Newell of Orrington. Sermon by Rev George W. Field, of Boston. Ordaining Prayer, Rev D. Thurston of Steuben; Charge to Pastor, by Rev S. Thurston of Searsport; Right hand of Fellowship by Rev E. C. Cummings of Brewer; address to people, by Rev W. Parker of Belfast; closing prayer by Rev J. K. Son of Hampden.

MASONIC.—"Harwood Lodge," of Free and Accepted Masons was instituted at Machias on Friday last; and the following officers installed: W J D Sargent, M; John Beverly, S W; J A Hill, J W; H Dansenbeum, T; J C Adams, S; H Chipman, C; H L Hill, S D; Winslow Bowker, J D; S W Farrar, Marshall; W Mowry, Jr, S S; Geo Thaxter, J S; Jabez West, Tyler.

MARTIN PAINE.—We are pleased to learn that our young friend and townsman, John K. Paine, is prosecuting his musical studies under great advantages, and by his talents and perseverance, is fast working his way into notice. Master Paine is studying the organ with Knupt the most renowned organist in Germany and is working with his all his energy and enthusiasm under the most thorough instruction, and is we think destined to take a high rank in this country as a musician.—*State of Maine.*

RAILROAD DEPOT BROKEN INTO.—The Depot at Merrill's Corner, Westbrook, on the York & Cumberland Railroad, was broken into Wednesday evening, while the Depot Master was at tea, and robbed of some 300 tickets.—The scamp did not obtain much that would be of value to him.

INCENDIARISM IN WESTBROOK.—The store of Messrs. Winslow & Lagrow, at Allen's Corner in Westbrook was discovered to be on fire between nine and ten o'clock on Tuesday evening. The fire was fortunately discovered before it had made much progress. It was got under after damaging the stock and building to the amount of $500. There is no doubt, in that vicinity, that the fire was the work of an incendiary.—*Argus.*

Township No. 12, R. 4. The survey of this township is now completed, and we are informed by Mr Barker, the surveyor, that it is a very fine settling town, nearly all the south half of which he has just surveyed, being excellent settling land. Here is a good chance for a number of old neighbors and friends to settle together.—*Aroostook Pioneer.*

APPOINTMENT.—Mr Charles B. Varney has been appointed an Inspector of the customs at this port, in the place of Mark E. Jose, Esq., resigned.—*Argus.*

Washington Items.

WASHINGTON, D.C.

It was recently extensively reported that Secretary Cobb had accepted the appointment of Minister to France, and duly it is rumored he is going to England in a similar capacity, but there is the highest authority for saying there is no truth whatever in these statements, and further, that since the formation of the present cabinet it is not known that any member thereof has had the remotest idea of withdrawing from it for any purpose.

The President's message is in type, and will be ready for the press to-morrow.

Advance copies of the message will accordingly to the President's design be sent only to Richmond, Va. Baltimore, Philadelphia and *New York*. The report of the Postmaster General is printed and those of other heads of the departments are in the hands of the compositors. Copies of the message with these accompanying documents will be distributed to the press as heretofore by the respective postmasters of the above named cities as soon as they shall be notified by telegraph that the reading of the message has been commenced in congress which will probably be on monday next about one o'clock.

But few members of Congress have yet arrived. The great rush will be within the next two days.

COMPLIMENTARY DINNER TO HON. J. R GIDDINGS. The personal and political friends of this veteran champion of liberty have taken the occasion of his visit to our city to tender to him a complimentary dinner, which came off yesterday afternoon at the Parker House.—About sixty gentlemen were present. The dinner was everything that could be desired. A rare feast of reason followed the removal of the cloth. It occupied several hours, and yet left every partaker with an appetite for more of the same. Hon. Henry Wilson presided, and made the first speech. He alluded in warm terms to the prolonged and efficient service of Mr. Giddings in Congress. Mr. Giddings responded in a very happy speech. Excellent speeches were also made by Governor Banks, Hon. Linus B. Comins, Hon. Charles F. Adams and others. The speakers generally expressed regret that the Republicans in Congress were to lose the advantage of the great experience of Mr. Giddings. The compliment to the venerable statesman was a happy thought, and it was carried out in a manner to give full satisfaction to all who participated.—*Boston Journal.*

Mothers! Mothers! Mothers!

Don't allow poor cross Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will relieve all pain and is sure to regulate the bowels. Depend upon it, Mothers, it will give rest to yourselves, and relief and health to your babies. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it the surest and safest remedy in the world in all cases of Dysentery and Diarrhœa in children whether it arises from teething or from any other cause.

If time and health can be endeared by distance and years it is worth an eulogy to send.

Millions of bottles are sold every year in the United States. It is mild and soothing in its operation.

5th and 20th of each month.

Through tickets, including transit of the Isthmus via Panama R R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers without any extra expense. This is the only line giving entire through tickets, guaranteeing no detention on the Isthmus.

I shall make arrangements to forward passengers ... to San Francisco ... and safety to the passengers.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing the passengers by the Mail Line a sure and short passage with the greatest comfort and safety to health.

Tickets must be signed by one of the Company's Agents ... and Pacific Mail Steamship Companies, in this city.

AND LEATHER PRESERVATIVE.

Keep your feet dry, and you will seldom need a Physician.

It is a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption. It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when the water proof thus is remedied By the application of this preservative, it is ... soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a natural process, I discovered a preparation which, perfectly harmonizes with the animal properties with which leather is tanned. It will not only make leather water proof, but it likewise soften the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have no had my feet wet during that time. I therefore in all confidence, recommend it to the public as the best article in the market.

LOCK.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE, subscriber, having purchased the right of making and selling Davis' Patent Bee Hive for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

For sale, fifty swarms of Bees, with the new hives

American Safety Paper.

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper.—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by Henry Glynn, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U. S. Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices

Bank Checks—35 cts per lb.
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping silks and other fine articles it is excellent, as it prevents moths 40 cts a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time

For Southern climates it is excellent, and much superior to any other as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J, of about 300 horse power and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No. 70 Wall street, New York

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837.)

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France and other foreign countries Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with despatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors

TESTIMONIALS.

"I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS MASON,
Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,
Late Commissioner of Patents

"Mr R H Eddy has made for me THIRTEEN applications on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents
